Quick Craft Idea!

"Arts and crafts engage multiple brain areas simultaneously and improve bilateral coordination between the left and right sides of the brain, leading to immediate and future cognitive development."

Key Windchime

You'll need:

- at least 5 old keys
- a piece of drift wood or stick
- string or fishing line
- optional: acrylic paint

Directions:

1. Optional: Paint your keys and stick. Choose a few coordinating colors and have your child paint the keys and stick.
2. Tie a piece of string to either end of the stick so that you have a way to hang it.
3. Tie a piece of string to each key.
4. Tie the keys to the stick making sure that they are close enough to each other that they will chime when the wind blows them.
